

...harnessing the power of Oracle HCM Cloud Technology

Sprint-2-Success Methodology

The **Sprint-2-Success (S2S) Methodology** is IMC's proprietary scalable approach to successfully meeting your requirements, while never losing sight of your department's goals and company's vision.

S2S is guided by IMC's three-step delivery process:

Where Are You Now?

We work with you to understand your company's vision for the role of an HCM system within your organization. Ultimately, the objective is to have all departmental goals roll into the larger vision of the organization. Many companies talk about doing this, but don't actually practice it.

Where Do You Want Your Business to Go?

We capture your company's requirements accurately, confirm them with leadership, then aggregate this data to ensure our recommendations align with the departmental goals. This ensures that you get what your company needs upon project completion.

Implementing the Best Solution to Get You There!

Because we take the time to understand the requirements in relation to your company's vision, we know that our team will get your company across the finish line successfully.

The Mechanics of Sprint-2-Success (S2S)

-  **WARM-UP**
preparation for project kick-off
-  **STARTING BLOCK**
official kick-off
-  **START**
design the solution
-  **ACCELERATION**
data conversion and review
-  **DRIVE**
design finalized
-  **FINISH LINE**
go live!
-  **DECELERATION**
project closeout
